

Reverse Osmosis

SYSTEMS

● ● ●	High Flow Design	Delivers water up to 2 - 3 times faster than other systems.
● ● ●	Ultra Pre-Filtration	20,000 Gallon Capacity. 1/2 micron carbon filtration has the highest chemical adsorption rate of any similar carbon block filter. This saves membrane life. 2-Stage Filter
● ● ●	Warranty	5 year limited system warranty
● ● ●	High-Flow Membrane (up to 30 GPD)	Filters down to a molecular level and includes a 1 year (for the 3-stage), 2 year (for the 4-stage) or 3 year (for the 5-stage) limited warranty. vs. competitor's 90 day warranty.
●	Pre-Sediment Filtration	Sediment reduction to 10 micron.
● ●	Pre-Sediment Filtration	Sediment reduction to 1 micron. 1-Stage Filter
● ●	Polishing Filter	Water passes through a specific coconut carbon blend to ensure great-tasting water. Water is filtered down to 10 microns with a 10,000 gallon capacity. 1-Stage Filter
●	Xprotect™	Comes with the added protection of the : X-Protect™ Extends the time your water comes in contact with our carbon filter for the maximum protection in residential R/O systems. 2-Stage Filter

standard faucets
chrome, black, bisque brushed nickel, white

high-style faucets
brushed nickel, oil rubbed bronze, chrome

MasterFlow™ Water Softeners
MasterMind™ Controls

Benefits to owning a MasterFlow™ water softener

- Enjoy up to 75% savings on your soap and detergents
- Keep your household plumbing and fixtures free from calcium and magnesium buildup
- Spend less time cleaning
- Your clothes last and stay white longer
- Reduce hard water spotting on showers and sinks

Maximum flow rates for today's Home & Lifestyles

Many standard softeners can't handle flow rates that stand up to the plumbing fixture count. Let your water professionals make sure your home is protected.

MasterMind™ Smart

Our valve control "learns" how your family uses water. This means, you won't have needless cleaning cycles or hard water bleed through, often found in standard softeners.

Bigger is Better

Our large capacity systems will cycle less, saving wear and tear on the entire system.

25 Year Limited Warranty

Because of our robust system design, our warranty is longer. Our systems are made to withstand extreme heat and aggressive problem water.

Available Capacities starting at 32K to Commercial Size

	TopFlow™ Valve	Our professional valves have high flow rates, giving you good flow pressure at your showers and faucets.
	MasterMind™ Smart Valve	Learns from your household water usage patterns and adjusts to conserve water and system life.
	Large Capacity	Designed for today's larger homes, this system will deliver soft water when you need it. It will also regenerate less, saving wear and tear on the system.
	Performance Resin	Our special resin can withstand extreme heat and aggressive problem water and carries a 25 year lifetime warranty.
	Multi-Tank Design	This allows for ease of service or relocation. If there is ever an issue tank you need not replace the entire unit.
	Long Warranty	25 year limited system warranty 25 year resin and brine tank warranty 5 year MasterMind™ Smart Valve warranty

Systems also available with white brine tank.

Decor Options

White shroud with white brine tank

No shroud with white brine tank

Valve Option

High Efficiency Commercial Valve

Valve is used in light commercial and all sizes of homes giving you our largest flow rates available.

MFWHF

MasterMind™ Smart Valve	Media demand system maximizes unit's effectiveness
Large Capacity	Accommodates higher flow without bleed through. Longer media change intervals.
Sediment Filter	Improves water quality throughout your home. A great addition to a reverse osmosis system and softener
Chlorine Reduction	Water throughout your house will be healthier and smell better.
Healthy	Baths and showers without Chlorine adsorption, inhalation, or ingestion
Long Warranty	25 year limited system warranty 5 year MasterMind™ Smart Valve limited warranty
